

## POWERS PRESENT CHINA WITH ULTIMATUM TODAY

### British Reported in Preparation for War Against Nationals; London Rushes Troops

(Continued from First Page)

non-inspired reports indicate that Great Britain is threatening the seizure of all Chinese ports in the south along the Yangtze, including Canton, Swatow, Amoy, Foochow, Ningpo and the Wusung forts guarding the approaches to Shanghai. The Japanese also state that Great Britain is bringing pressure on the powers for a complete blockade of the Nationalist territories, stopping all outward and incoming cargoes.

However, owing to the possibility of American and Japanese opposition, the Chinese do not believe that Great Britain will be able to carry out such intentions.

**MAY URGE INQUIRY**  
The Japanese say the powers will recommend the appointment of a Sino-Foreign commission to investigate the Nanking responsibility and assuming the property damage.

Quo Tai-Chi, who is a Pennsylvania graduate, is cheerful despite the numerous complications facing the Nationalist government. He is unable to forecast his government's reaction pending the receipt of the demands by the powers, but he indicates the possibility that the Nationalists will go a great distance to make amends regarding the Nanking incidents, owing to the fact that a break with the powers at this time would be likely to prove disastrous, owing to the fact that Marshal Chang Tso-lin is now making a desperate attempt to split the Nationalist party and obtain foreign financial support for the purpose of crushing the Nationalist movement.

Marshal Chang's raid on the Soviet Embassy was interpreted here as a last desperate attempt to obtain foreign financial support for the purpose of crushing the Nationalist movement.

Although it is known here that the Nationalist military forces have suffered serious reverses in the fighting against the northern troops under Gen. Chiang Kai-shek, a few miles north of the Yangtze River, the Nationalist papers assert tonight that Gen. Chiang Kai-shek will be able to hold the situation until the reinforcements being rushed up from Shanghai and immediate points are available.

In the fighting in the vicinity of Yangchow on the Grand Canal, the northern troops adopted the Chinese strategy of filling the town with plain-clothes gunmen who took advantage of the Chinese festival celebrations to create a reign of terror, while launching a simultaneous military attack on the city.

The Nationalists today lodged another protest against the British regarding the second raid on Chinese territory conducted by 100 British troops who surrounded the Great China University, a Chinese institution located outside the international settlement.

Prior to lodging the formal protest, the British action in destroying the Great China University, the northern troops were really intended as assistance to the Nationalists, since the forces commanded the river approaches, preventing the northern craft from ferrying their forces across the river. The Cantonese, however, assert they are able to hold Chinkiang, since the Cantonese navy has a dozen gunboats patrolling the river.

Fighting also is in progress along the Tien-tsin-Pukow Railway in the vicinity of Fengpu, with the northern forces still holding their positions. The Nationalists today lodged another protest against the British regarding the second raid on Chinese territory conducted by 100 British troops who surrounded the Great China University, a Chinese institution located outside the international settlement.

## CRUELTY OF OLD NOT LIKE THIS

Man Seeking Divorce Says Wife Cut Radio with Baby Ruth at Hat

OAKLAND, April 10. (Reuter)—Mr. William F. Morris was called upon to explain from the witness stand how his wife was so cruel that she cut the radio with a knife.

"Well, your honor," said the witness, "it was the last thing of the last game of the last world's series. Babe Ruth was at bat. Just as the second strike was called on him, she turned off the radio."

"Extremely cruel," agreed Judge Allen. "Decree granted."

Quo Tai-Chi called Sir Sidney Barton, the British Consul-General, on the telephone and inquired about the recent British action in conducting raids in Chinese territory.

Quo later said that Sir Sidney angrily declared that Great Britain is determined to protect the lives of its nationals and hung up the receiver.

**WOMEN BATTERED**  
Forty-four Japanese, including ten women, were assigned today within the city of Soochow, only forty miles north of Shanghai.

According to the Chinese Press, tonight, Chinese laborers early this morning began demonstrating against the Japanese soldiers forcing the Chinese to flee into the consulate and two Japanese-owned factories. Some Japanese soldiers succeeded in struggling out. One man who came to Shanghai this afternoon reported the situation, causing the Chinese to immediately demand that the Japanese Foreign Commissioner, demanding that the Nationalists dispatch a military force to Soochow in order to effect the release of the besieged Japanese.

**DRIVE FURIED BY NORTHERNERS**  
SHANGHAI, April 10. (AP)—The military successes of the reorganized northern forces under Gen. Sun Chuan-fang continue, advice reaching here says.

A wireless dispatch from Chinkiang, dated the 9th inst., says Gen. Sun's troops in their successful drive have reached three points on the Yangtze, bank of the Yangtze River, opposite Chinkiang. While the northerners have not yet crossed the river, the Nationalists already are falling back from Chinkiang along the railway to Chang Chow and Hankow.

The fact that troops movements across the river indicated that all Nationalists who were in this area now are south of the Yangtze.

A wireless from Hankow says the signs are that the Nationalists are withdrawing from Pukow since many Japanese troops have been driven back across the river toward Chinkiang and between 4000 and 5000 men crossed the river to the north bank Saturday morning and deserted to the north.

Reports of an advance by the northerners in Honan Province have not yet been confirmed. The northern forces, it is said, are still at Sinyangchow.

**JAPANESE AT SOOCHOW ISOLATED**  
SHANGHAI, April 10. (AP)—Japanese reports from Soochow say that coolies and police have surrounded the Japanese Consulate and business premises of Soochow, thus preventing the evacuation of thirty-four men and ten women. The situation in the city is said to be growing worse.

Two steamers have left Hankow with 300 additional Japanese refugees. A Japanese destroyer, escorting the steamers down the river to Shanghai, whence they will sail for Japan. Only eight Japanese remain in Chinkiang and these are ready to evacuate at short notice.

The Japanese and French have evacuated the districts above Hankow and the Americans remaining up river have left Ichang and Changchow. The Japanese evacuated Wuhu Thursday.

The political council of Anhwei has made representations to the various shipping companies that great inconvenience has been caused because steamers have dropped Nanking as a port of call.

**CANTONESE SAID TO BE RETREATING IN DISORDER**  
LONDON, April 10. (AP)—An exchange of dispatches from Shanghai says the Cantonese have evacuated Chinkiang and are retreating in disorder toward Shanghai, necessitating the greatest precautions by the foreigners there.

The dispatch says the French already have been compelled to prevent the entrance of a routed mob of soldiers.

Chinkiang is forty-two miles from Hankow and is on the Yangtze River. It was captured by the Cantonese several weeks ago about the same time that Nanking was taken.

The last dispatch from Shanghai said a wireless message from Chinkiang dated the 9th inst., reported the northern troops had continued a successful drive against the Cantonese until they had reached a point opposite Chinkiang. This message said that while the northerners had not yet crossed the river, the Cantonese were falling back from Chinkiang to Changchow and Nanking.

**Moderates Declared in Cantonese Majority**  
SHANGHAI, April 10. (AP)—The Moderates are in the majority in the Cantonese political party and are bound to win. Quo Tai-Chi, Cantonese Commissioner for Foreign Affairs in the Shanghai district, told the Associated Press today in a frank discussion of the aims, methods, problems and present operations of the revolutionary movement.

Moderate victory, he said, Michael Borodin, the Russian, who has been advising the Cantonese government at Hankow, must go, and many Red Russian ideas will have to be discarded by the Cantonese.

The Western World should not be hysterical over the Chinese situation, he said. The battle against reaction in China has been won and the future contest is against the ultraradicals within the Kuomintang (Cantonese political party).

Quo is admittedly high in the councils of the Kuomintang and is acting chief aide to Chiang Kai-shek, the Cantonese military commander. He is a graduate of the University of Pennsylvania.

## RUSSIA ISSUES WORLD WARNING

Chinese Action Held Peaceful, Not Sign of Weakness

Note to Peking Demands Return of All Papers

International Conference is Told of Attitude

(Continued from First Page)

The idea of a punitive action, "It fully understands that irresponsible foreign imperialists are provoking Russia to war," the note says, "is fully understood by the Chinese."

According to the note, the Chinese government is determined to protect the lives of its nationals and hung up the receiver.

## SOVIETS TEACH MASK WEARING

People Instructed in Defense Methods in Case of Gas Attacks

MOSCOW, April 10. (AP)—De tachments of housewives, servants and other members of the

"unorganized population" soon will be formed by the Soviet society of chemical warfare to resist gas attacks by enemy armies.

Members recruited through existing house committees will be trained in the use of the gas mask, the composition of poison gases and treatment of gassed persons.

**RECORD FLEET FACED BY CHINA**  
(Continued from First Page)

six, Japan, forty-nine, the United States, France, ten; Italy, four, and Spain, Portugal, The Netherlands, one each.

The fleet of the United States is concentrated at Shanghai where all eight nations are represented; forty-two contains some of the world's most modern and efficient light cruisers, notably the American third light cruiser division under Admiral

Blakely. The British first and fifth cruiser squadrons, totaling thirteen vessels, are modern, speedy and effective. The Japanese, Vice-Admiral Tsuruma's fleet, and the French, which is at Hongkong.

**MODERN WARSHIPS**  
The great armada of foreign ships does not include any capital vessels. It contains some of the world's most modern and efficient light cruisers, notably the American third light cruiser division under Admiral

Blakely. The British first and fifth cruiser squadrons, totaling thirteen vessels, are modern, speedy and effective. The Japanese, Vice-Admiral Tsuruma's fleet, and the French, which is at Hongkong.

**BRITISH VESSELS**  
Great Britain: At Shanghai—Five cruisers, the Hawkins, Durban, Vendictive, Curlew and Dauntless; the destroyer Kestrel; the aircraft carrier Hermes; the destroyers Emerald and Glasgow; the gunboats Cricket and Scarab.

At Hongkong—The cruisers Proctor, Delhi, Dartmouth and Dragon; the aircraft carrier Hermes; the destroyers Bruce, Serapis, Somme, Stirling, Stordale, Sepoy, Birdar and Tharston; the sloop Peacock; the gunboats Cricket and Scarab.

At Hankow and Upper Yangtze—The armed yacht Isabel, which is Rear-Admiral Hackett's flagship; the destroyers Emerald and Glasgow; the gunboats Cricket and Scarab.

At Hankow—The cruisers Proctor, Delhi, Dartmouth and Dragon; the aircraft carrier Hermes; the destroyers Bruce, Serapis, Somme, Stirling, Stordale, Sepoy, Birdar and Tharston; the sloop Peacock; the gunboats Cricket and Scarab.

## GEDDES SPEECH ROUSES BRITISH

Former Ambassador Termed Discredited Politician

Official Journal Castigates Speech as Outrage

Denies American Missions Foster Chinese Hostility

LONDON, April 10. (AP)—The action of the Australian Geddes, former British Ambassador to the United States, in breaking his long political silence last night with a speech in which he declared that one of the streams of anti-British propaganda in China came from many American missions and hospital centers, promises to make a first-class sensation here.

The Westminster Gazette, in an editorial which will appear tomorrow, calls for an explanation and apology from Mr. Auckland, and says that it should be the government's duty to do something to counteract the propaganda of the anti-British propaganda.

**SOLID GOLD ADZE**  
"But the richest grave was found at days of olden days," we came on a board of copper tools and weapons lying between two of the flinty strata of which the hillside is made. There were a number of polished carnelian beads and pendants of the conventional background, and the plaques are framed with narrow borders of pink limestone and lapis lazuli.

**WOMEN BATTERED**  
Forty-four Japanese, including ten women, were assigned today within the city of Soochow, only forty miles north of Shanghai.

According to the Chinese Press, tonight, Chinese laborers early this morning began demonstrating against the Japanese soldiers forcing the Chinese to flee into the consulate and two Japanese-owned factories. ## BACHELOR'S LOT HARD ONE

Shopkeepers of Ireland Prohibit Single Men from Attending  
Marnequin Parades in Which Latest Fashions in  
Chic Lingerie Are to Be Displayed

ENRICKILLAN (Ireland) April 10.  
(AP)—Bachelors in this town have  
been robbed of one of their favorite  
pastimes—that of attending man-  
nequin parades.

There has been no explanation of  
the ruling. The news has been whis-  
pered about, however, that in view  
of the fact that married men are  
permitted to attend, the latest fash-  
ions in chic lingerie are to be dis-  
played as well as the latest street  
creations. Lingerie should not inter-  
est bachelors, aver the shop-keepers.  
The mannequin, most of whom  
are from Dublin and London, are  
peered at the doors of the stores

managers. If married men are al-  
lowed to see the parade, declare the  
mannequins, single men should be  
equally honored.  
"All men look alike to us," ventured  
Mrs. Vera Stuchins, in charge of the  
mannequin employment agency of  
County Fermanagh, "and we contend  
that it is really taking a shingle off  
the roof of our livelihood, as bach-  
elors as well as men with life mates  
are interested in smart dress—and  
undress—as a great many of them  
have no intentions of remaining  
bachelors always."

The married men are allowed to  
attend the shows—only on condi-  
tion that their wives bring them.

## ELLIOT F. SHEPPARD OF FLORIDA EXPIRES

MIAMI (Fla.) April 10. (AP)—Elliot  
F. Shepard, 61 years of age, widely  
known millionaire sportsman and  
politician, died today at his Miami  
beach estate, La Torre Della. His  
illness had been protracted. He was  
the son of the late Elliot F. Shepard,  
former owner of the New York Even-  
ing Mail and Express. His mother  
was the former Margaret Louise Van-  
derbilt.

## NEW YORK SCHOOL- BOY COMMITS SUICIDE

NEW YORK, April 10. (AP)—Michael  
Wright, 15-year-old school boy, com-  
mitted suicide today by hanging him-  
self with a bookstrap in his home.  
No reason was possible overheard  
was found for his act.

## IMMIGRANTS CLASSIFIED

The term immigrant, Vela said, is  
applied to a person who enters Mex-  
ico with intention of remaining in  
the country longer than six months.  
It does not apply to Mexicans return-  
ing to Mexico nor to foreigners re-  
turning to their own country for less  
than six months. All immi-  
grants and emigrants must secure  
identity cards, excepting minors of  
either sex, and a passport does not  
take the place of an identity card.

Persons will be considered as tur-  
ists, whether Mexicans or aliens,  
that enter or leave the country for  
purposes of pleasure, study, busi-  
ness or art or to visit relatives.  
Such persons will need only provide  
themselves with a tourist certificate  
at present, but this is soon to be re-  
placed by a tourist card, which is  
much simplified and may be issued  
as an individual or to a whole fam-  
ily or party.

This one document will both au-  
thorize entry to and exit from the  
country, and the health inspector's  
stamp on it when the person enters  
or leaves the country will be all that  
will be required. Hereafter there has  
been confusion and some annoyance  
to travelers at some border gateways  
because of unexpected health inspec-  
tions which sometimes compelled  
them to miss trains.

## RAILWAYS WORKED FOR IT

The Mexican National Railways  
have been working for easier regu-  
lations of tourist travel for some  
time, as the necessity for health in-  
spections at the border annoyed  
Americans who, being unable to  
speak Spanish, had some difficulty in  
understanding instructions and get-  
ting about from office to office.

Under the new plan it probably  
will be arranged so that an Ameri-  
can may get his health certificate and  
identity card from the Mexican con-  
sulate in his own city, and the ex-  
hibition of these visas at the border  
will carry him through without fur-  
ther trouble.

That system has been tried out be-  
tween Houston, Tex., and Monterrey,  
Mex., and proved very satisfactory.  
Travelers did not have to leave their  
suitcases, but merely had to show  
their credentials to inspectors who  
passed through the train when it  
stopped on the international bridge.

## REPORTS SEE MEXICO

More than seventy-five editions of  
American farm publications now are  
touring Mexico, and the farmers of  
the United States soon will be read-  
ing their reports of Mexican prod-  
ucts. The papers represented are  
said to have a combined circulation  
of 15,000,000 in the Middle West. The  
special train, carrying the paper start-  
ed in St. Louis and will visit Mon-  
terrey, Tampico, Mexico City, San  
Luis Potosi, Cordoba, Vera Cruz,  
Guadalajara, Aguascalientes and  
Tucson.

Had the trip been arranged a little  
later it certainly would have includ-  
ed the west coast also, but when it  
was arranged it was not certain that  
the "Tropic out-of" would be completed,  
and as the American editors will not  
see perhaps the most impressive and  
profitable agricultural region in all  
North America.

## FLOOD SUIT WITNESS TO RESUME DEPOSITION

REDWOOD CITY (Cal.) April 10.  
(AP)—Mrs. Eudora Helen Williste is  
scheduled to resume tomorrow her  
deposition in connection with the  
suit of Mrs. Constance May Gavin  
of Los Angeles, for a share in the  
estate of the late James L. Flood.  
Mrs. Gavin says she is Flood's daugh-  
ter. Court attaches say the defense  
expects to prove Mrs. Gavin the  
daughter of Mrs. Williste and Edward  
Stearns, her husband at one time. At-  
torneys for Mrs. Gavin were notified  
that her deposition would be taken  
in Los Angeles the 19th inst., be-  
fore Elmer Kincaid, notary. A sub-  
poena was served on Mrs. Gavin last  
week.

## CHICO OFFICIAL DIES

CHICO, April 10.—Richard White,  
70 years of age, a resident of Butte  
county for the last sixty-six years,  
and a prominent figure in local polit-  
ics, died today. At the time of his  
death he was assistant District At-  
torney of Butte county, and president  
of the Chico Board of Education.

## Build Fire-Safe

Fifteen thousand lives, mostly those  
of women and children, are lost each  
year through fires. If a fire-safe  
residence cost thousands of dollars  
extra, such losses might be under-  
standable. But practical fire safety  
can be built into any residence at  
little if any extra cost.

The Underwriters Laboratories have  
PROVED that Better Plastering on  
metal lath provides practical fire  
safety.

Ask your plastering contractor to  
protect your family with this mod-  
ern, economical, tested construction.

The National Council for Better Plastering

704 Gail Building, San Francisco, Cal.

**This  
Sign**

means a new Service for your Car!!

**THE PAN AMERICAN PETRO-  
LEUM COMPANY, through its  
INDEPENDENT DEALERS, offers  
a crank case cleaning service for your car never  
before possible—the PAN-AM MOTOR  
CLEANING MACHINE!**

This service consists of pumping only two gal-  
lons of PAN-AM Cleaning Lubricant through  
your running motor, over and over again—

filtered as it circulates—until the cleaning  
lubricant comes through clean (having done  
the work of many gallons). This removes  
every particle of muck, grit and dirt from your  
crank case—fully 68% more than the most  
thorough old method of "flushing" can re-  
move. And because the PAN-AM Cleaning  
Lubricant is 100% lubricating oil there is no  
"cutting" of the new oil.

## PAN-AM MOTOR CLEANING MACHINE

(Osborne Process, Patent Applied For and Pending)

will actually increase your motor's power—and lengthen  
its life. It makes possible 100% efficient  
lubrication—and saves repair bills! Drive in  
today where you see the PAN-AM sign and  
have, not only the crank case, but transmis-  
sion and differential of your car washed out  
by this machine.

Then ask to see the residue left in the filter!

The amount of dirt, grit and other foreign matter which  
for months has been circulating in your car  
—cutting down power and wearing down  
working parts—will astound you!

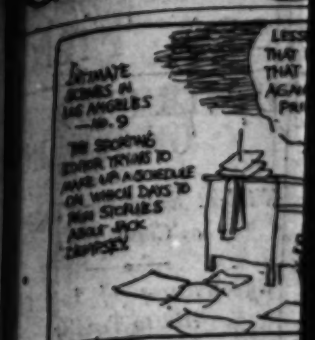

**Ask your Service  
Station Man  
for the PAN-AM  
Cleaning Machine Ser-  
vice. If he hasn't got  
it—tell him to get it.  
No waste to please you**

## OFFER MATMEN TITLE GO

***With Londo for Claim to Title***

"Carnation" Lou Daro, wrestling promoter, has promised the winner of the Tommy Drask-Paul Jones bout at the Olympic Wednesday night, match with Jimmy Londo, the popular Greek matman. Drask, a 280-pound Hollander who is already credited with a decision over Londo, and the Texan matman, will meet in half of the double main event scheduled

Their match will be preceded by a fifteen-minute special event between Ormand Shoemaker of Naton, N. M., and Marian Zikovich.

## MARYSVILLE GIANTS

### WIN OUT IN ELEVENTH

division over London nothing would satisfy him more than a victory by fall.

Finally, the other party who became greatly excited when the Hellenic idol was mentioned as the opponent for the winner, would like nothing better than another opportunity to see the champion of the world in person. And as the season with London

MARYSVILLE (Col.) April 18. (AP) Ted Zackney starred for the Marysville Giants in an eleven-inning game with Dixon today. Marysville won 10-1.

Zackney scored two runs for Marysville in the ninth, tying the score. In the eleventh he swatted the ball

and he lost out when London knocked him unconscious by throwing him to the mat with a reverse headlock.

The lanky Tesan will rely on his youth, speed and famous spitt hold to upset the "Flying Dutchman." Those who saw Jones in action against George Kot-

Warner took a fourth straight victory.

## 47 Years in the business of rug cleaning

MINE is no fly-by-night business. The Pioneer has been cleaning the finest rugs in Los Angeles for almost half a century!

You send even your most precious Oriental rug to me and know they will come back promptly, when promised, thoroughly cleaned and carefully repaired—if the latter is necessary. You take no chances with the Pioneer. We, last month a single order of Orientals that came in was valued at over \$40,000.

The business of mine is the only exclusive rug cleaning establishment in Los Angeles using the modern Naphtha Process. That's for absolute cleanliness and sanitation.

*W. E. Hines*  
PRESIDENT

**PIONEER**  
Rug Cleaning Works  
PHONE TRINITY 0143

[This business started in 1880]

The department was careful to point out that no credit was assigned of the guardian, but that it was merely considered advisable in view of the widespread agitation which has met the death sentence of the two Italians.

### MOSCOW PAPER PRINTS TERRORIZATION STORY

MOSCOW, April 10. (AP)—Pavlov, in an article devoted to a condemnation of the conviction of Nicola Sacco and Bartolomeo Vanzetti for murder in Massachusetts, today publishes a lengthy description of "third-degree terrorization," asserted to have been undergone by the condemned men for two years.

The article says the men were confined in a specially constructed padded room having a mirrored ceiling on which appeared at intervals a spot which gradually took the form of a terrifying open-jaw creature. Meanwhile a human voice shouted "Tell the names of your accomplices."

The effect of this, says the article, was to render the prisoners hysterical and insane.

## Angeleno Dies in Phoenix From Bullet Wound

PHOENIX, April 10. (Reuter)—Henry F. Sternberg, a health dealer from Los Angeles, died this morning in a hospital from the effects of a bullet wound in the side, incidentally inflicted by Michael Hoffman, a fellow-patient in a local sanatorium.

### WELL-KNOWN IRISH PEER DIES SUDDENLY

LONDON, April 10. (AP)—The Earl of Derby, 68 years of age, well-known sportsman and Irish representative peer, died suddenly at Cobham today. It was announced last night. The Earl played with the Blooms cricket eleven, 1876-77, and on the Cambridge team, of which he became captain. He also captained the British cricketers on their invasion of Australia in 1883 and represented Cambridge against Oxford in tennis racket matches. An ardent sportsman throughout his life, the Earl played golf last week.

Gifts for East  
SI  
Ent

# The World puts its best into Brooks \$25 Suits

LIKE choicest gifts to a monarch from his loyal subjects come the World's finest offering to the threshold of Brooks. The jealously guarded prestige of painstaking Old World Mills produces these peerless fabrics from the best of Australia's virgin wool. The flax fields and textiles of Europe supply the trimmings. Skilled hands of English, foretelling the trend of modes, design the inimitable Brooks Model, far in advance of the coming season.

... Upon this foundation of superiority—Brooks master tailors, in our immense and modern factory—with their forefinger upon the pulse of style leading New York, dexterously mold the marvelous suits that are the delight of tens of thousands of wearers.

... In no other Suits anywhere are you offered more than Brooks offers you at \$25. Only by our revolutionary "creator to you" policy are such values at one single price possible.

... And just One Price—\$25.00—protects you. We do not "bait" you with a low price and then high pressure you into purchasing a suit at a higher price. Remember Brooks is America's largest exclusive \$25.00 clothing institution—we have a reputation to sustain—and we are sustaining it—by making the best clothes you can buy—and then letting you do the buying. We do not employ salesmen—ours are Service Men—at your service.

ENSEMBLE COMPLETE from **BROOKS**

## Style Tips in Brooks \$25.00 Suits

... The three button coat is the newest for spring, but the popular two-button model holds its position strongly.

... Double breasted coats are increasing in favor, especially those that accentuate the waist line. When tailored of blue serge and worn with flannels are extremely dressy.

... Glen Eagles Twists in Spring and Summer coloring are indicators of the new era of brighter tones in men's wear. These superb all wool fabrics are wonders for service and hold the press well.

... Cheviots in grays and tans and conservative mixtures will be much in evidence.

... Clover leaf lapels are the new word in the styles for young business men who know the necessity of retaining the youthfulness of college spirit.

... All that is new and authentic in men's suits awaits your coming at Brooks—and you can buy it at just one price—\$25—Not \$30 or \$35.

**Wild Mustangs in Nevada be Killed**

RENO (Nev.) April 10. (Special.)—Almed at extermination of wild horses in the counties of Nevada, a campaign has been launched by Federal and state agencies, in co-operation with the hunters and stockmen. Over 100 boys have been engaged to hunt the drive.

It is proposed to kill practically all the bands of mustangs in the state, together with the animals ranging from the cattle country to the mountains of California to the stockmen claim the mustangs are destroying large areas of valuable range and causing portions of the stock to live stock.

BOARD TO MEET MONDAY

SACRAMENTO, April 10. (Special.)—The California Game and Fish Commission will meet Monday in Los Angeles to discuss the mission headquarters here.

**PRINCE GEORGE IS "P. G." TO HIS INTIMATE ASSOCIATES**

LONDON, April 10. (P.)—Royalty and circles which associate with royalty have their own nicknames for one another.

To his friends among the younger set of society Prince George is known by his initials—"P. G."

The King is known to Queen Mary and his three sisters and a few others as George. To her intimates the Queen is Mary but the King prefers to call her May.

that ordinarily ground is well prepared by this time.

In the South, planting is one to three weeks later than last year, in cotton and corn, but generally all other crops, including cereals, are planted earlier than last year.

The crop of the second food is due in four to six days now with threats of much greater inundation through breaking levees.

Occasional heavy rainfalls scattered over the belt the past week has further hindered plowing and jeopardized the harvest.

A heating rain storm passed the Memphis area today, eliminating all chance of planting for at least a week, and this situation exists in many places. Good prospects for reduction in acreage of 25 to 30 per cent in the central belt and elsewhere from 10 to 20 per cent, with chance of greater average reduction if rains continue. Fertilizer sales continue to run 12 per cent less. Cottonseed is cheap, however, with little demand, as most planters saved their own seed. The supply is ample for much replanting if necessary.

The movement of spot cotton in the interior of this section of the belt continues very slow, due mainly to poor offerings rather than slow demand. Only in the grades below strict good ordinary is there any sign of weakening in the market. Those grades are 25 to 30 points weaker, with much of it moving. The better grades remain at the highest of the season with these types very hard to find. Country supply of fair to good grades is completely exhausted and the present bidness are threatening to hold for re-planting, which they expect to be much higher by the time the movement begins, because of reduced production through smaller acreage and smaller production per acre.

**SALES INDICATIONS**

Receipts of cotton at Memphis the past week were 48,400 bales, including 2800 purely local, which is about 3000 more than last week and 18,000 more than this time last year, indicating that there is a slight volume of liquidation to finance the crop while bidders and factors are restricted credits. Shipments ran 10,000 bales, about equal to the previous week, but nearly twice the volume of the same week last year. Total stocks declined 10,000 bales to 124,700 bales, compared with 277,000 bales last year.

The factors' unused stock is less than 50 per cent of the total stock, with average recoument of 2000 bales per week to the extent that this unused stock is less than half of the same stock this time last year.

Spot sales were comparatively quiet, the total running to 6000 actual spot and 15,500 l.b. for the week, against 8200 and 19,200 last week and 2900 and 4800 this week last year.

The inquiry and demand for the longer staples of the delta is likewise quiet, but stocks of good grades, three, two, one and there is little inclination on the part of the association or individuals to sell at current prices. Several big lots of cotton were sold the past week, including all grades and staples, at an average of 15 to 18 cents—the highest bids of the season.

**SINCLAIR TO KNOW JAIL TERM TODAY**

Oil Magnate's Attorneys Will Carry Contest to Highest Court in Land

WASHINGTON, April 10. (P.)—Harry F. Sinclair, millionaire oil operator and sportsman, will be sentenced to jail tomorrow by Justice Hitt in the District of Columbia Supreme Court for contempt of the Senate in refusing to answer a series of questions before the Senate Oil Committee three years ago.

The minimum penalty is one month and a fine of \$100 and the maximum penalty is twelve months and a fine of \$1000.

The issue of the Sinclair Dome naval oil reserve in Wyoming was convicted by a jury last month of American Telephone and Telegraph, and after Justice Hitt imposed sentence they will note an appeal and the oil operator will continue at liberty under bail, probably in the same amount as heretofore, \$5000.

**PREDICTIONS ON BUSINESS UPSET**

Stock Market Rises to New Peak in History

More Issues Participate in Trading Than in Past

War Between Giants of Auto World Causes Puzzle

BY PAUL WHELAN GARRETT

(Copyright, 1927, by New York Evening Post, Inc.)

NEW YORK, April 10. (Exclusive.) All past predictions of the financial future have been turned into thin air by the rapid advance of seasoned stocks and warm weather. Despite first-of-the-year expectations, the stock market this week has risen to a new peak in history, far above that set early last year. More issues have participated in the trading than ever before and increased public interest has swollen the volume to a series of \$200,000,000 business. The ability of the bull or bear forces to take full command of the market for long shows how mixed is the pressure of opposing forces, but it leaves no doubt of the present superstrength of the bulls. Activity still is concentrated in the quality issues and from that standpoint the movement inspires faith, but stock exchange loans have been creeping up. The optimism of covering has been turning on the stock market as its performance has increased in interest, but the price movement is not widely understood.

**GOING BEYOND NEWS**

For the secret of the stock-market movement it is necessary to reach beyond the news of business trends down into the heart of the matter, which runs through the standard of investment stock values and in the money position, but as present values even these general influences would not support the market, except for an abiding faith in 1927 business. A variety of reports on industry, some favorable, some unfavorable, come to light every day, but as April proceeds these constructive in character make a deeper imprint on the market than the pessimistic. Business is somewhat more brisk than it was a month ago. It is better than it was two months ago and far better than in late 1926. The production in March set a new high for all time, more automobiles were made than in recent months and the building industry, which had been picked to lead the decline, has just recorded the largest month in its history.

Just as the building boom was perhaps the most powerful influence in starting of the present period of prosperity, most prophetic commentary on the general collapse of the building industry, which had been picked to lead the decline, has just recorded the largest month in its history.

More and more it appears that the property of the times is essentially a property of the strong at the expense of the weak in all lines of effort. So long as the commodity price trend is downward the pressure to make profits through the introduction of economies will increase. These economies are available in greater measure to the large than to the small-scale producer. Herein lies the explanation for the countrywide movement toward consolidation in the various fields of business. Evidence of the toll that so violent a movement takes may be found in the increasing number of commercial failures primarily among the small concerns and in the growth of bank suspensions. Sentiment on the movement for great consolidations has undergone a radical change in the last twenty-five years and whereas once combinations were feared they now are accepted as natural and on the whole desirable.

**DIRECT ACTION Gas Ranges**

**DIRECT ACTION Gas Range**

**Are You Cheating Yourself?**

WHY pay 1927 prices for an 1896 stove model? Are you considering the purchase of an ordinary, old-fashioned stove when you can enjoy all the convenience and economy of the Direct Action Gas Range with Lorain Oven Heat Regulator?

Examine these stoves before you decide. Ask us to show you the famous *Bottomless Oven* that needs no pre-heating, the separate broiler with specially designed broiler burner conveniently located near the eye-level to save stooping.

Notice the absence of all the dirt-catching projections, note the sanitary rounded corners of the roomy cooking-top.

See the three oven racks and the famous "Elastic" Oven that provides additional oven capacity when you need it.

Choose for yourself—a Direct Action Gas Range for fuel-saving, time-saving, money-saving and years of satisfaction.

Demonstrated by Mrs. Jessie Shannessy each Monday and Wednesday in Mrs. Kate Brew Vaughn's Household Economics Dept., Evening Express, 240 So. Hill St., each Tuesday, 8th floor Los Angeles Gas and Electric Building, 810 So. Flower St.

Unless the Regulator has a RED WHEEL it is NOT a LORAIN

**LORAIN OVEN HEAT REGULATOR**

The small pictures above show three of the popular advantages of Direct Action Gas Ranges.

1. Separate Broiler above oven.
2. Handy Utensil Drawer.
3. Bottomless oven—saves gas.

**Sonny's Easter Suit**

Easter's a happy day for Sonny. He gets just as much fun from his new outfit as he does from his bunnies and Easter Eggs.

Here's a smart little flapper suit in fine quality linen. It is cleverly marked with rather large modernistic patterns. Plain color shorts button on.

**PHONE TIME EXTENDED**

Extra Hour Granted for Service Across Atlantic

NEW YORK, April 10. (Exclusive.) Effective today the period during which service is available for telephone calls to London and other points in England, Scotland and Wales was extended one hour, the American Telephone and Telegraph Company announced. Service will be opened at 7:30 a.m. New York time, instead of 6:30 a.m., as heretofore. There is no change in the closing hour, which is 1 p.m.

It also is announced that this time for the opening of service will prevail after daylight-savings time becomes effective in New York, on the 24th inst., being available after that date from 7:30 a.m. to 1 p.m. New York daylight-savings time.

**NEGRO SENTENCED ON STATUTORY CHARGE**

SALT LAKE CITY (Utah) April 9. (P.)—Ben Wyndom, negro Pullman car porter of Los Angeles, was today sentenced to an indefinite term in the state penitentiary. He pleaded guilty to a statutory charge resulting from his association with Mrs. Ra Peterson, white, awaiting trial for fatally poisoning two children, one her own. Mrs. Peterson will be given a preliminary hearing on a charge of first-degree murder Monday, Dist. Atty. Rogers announced today.

**WILSON'S HATS**

Special. 25 down Fine Imported White English Broadcloth Shirts with attached collars, \$1.85. 3 for \$5

**HATS**

Shirtings of fur felt; the same model as worn by the college man.

**Gifts for Easter**

**SILVERWOODS**  
Entire six floors: SIXTH & BROADWAY

Fourth Floor

**CLOTHES for BOYS**

**SHIRTS**

Special. 25 down Fine Imported White English Broadcloth Shirts with attached collars, \$1.85. 3 for \$5

**SWEATERS**

Diamond weaves, checks, jacquards in pullover "V" necks, and Lumberjacks

\$3.75 to \$8.50

**GOLF HOSE**

Plaids, mixtures, ribbed hose in life, wool, silk and wool. Plain and fancy tops

50c to \$4

**WILTON JR. Cravenette CLOTHES FOR BOYS**

COAT, VEST, TWO GOLF (Sleeve 6 to 14) \$15 \$17.50 \$20 (to \$25)

COAT, VEST, TWO LONGS (Sleeve 14 to 18) \$17.50 \$20 \$25 (to \$35)

That younger man will need fewer suits if you buy him "Cravenette" Clothes. He will be better dressed, too, because "Cravenette" Clothes for Boys not only wear longer, but they also have style.

**AS TO MOTOR WAR**

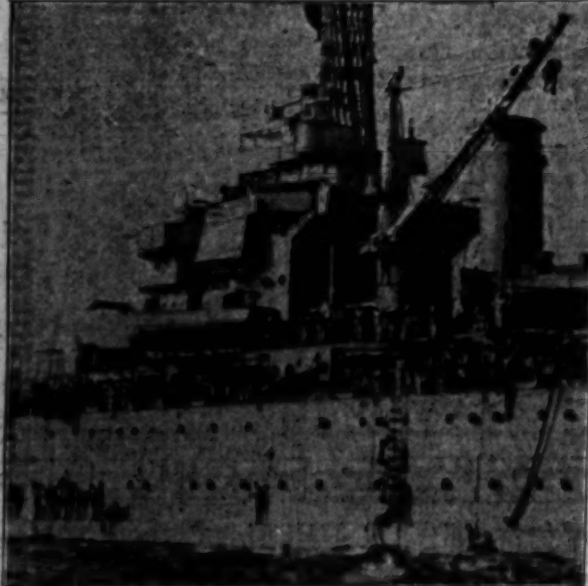

At the end of January the contract total for 1927 was 14 per cent behind the year previous, at the end of February 10 per cent behind and at the end of March only 4 1/2 per cent under the 1926 total for the same period. Now the war between the great giants of the motor industry will end nobody knows, but if the new models now running actually appear soon at the Ford factory the reasonable prospect is that total production will proportionately be expanded. In other words, the war between the great giants of the motor industry will end nobody knows, but if the new models now running actually appear soon at the Ford factory the reasonable prospect is that total production will proportionately be expanded. In other words, the war between the great giants of the motor industry will end nobody knows, but if the new models now running actually appear soon at the Ford factory the reasonable prospect is that total production will proportionately be expanded. Catching Mountain Lions Bare-Handed is no occupation for a drug-store cowboy. However, Bob Baker, a ha-man of the Glacier Park district, does it, as the above photo partially substantiates. Bob ropes 'em and brings 'em in. (P. & A. photo.)

It's Swimm' Time in The Caribbean, according to men in the Pacific Fleet who are sojourning in tepid waters where the "Flotilla" is now maneuvering. These boys may all wind up in China, if the gods are kind to them. (P. & A. photo.)

A Broken Hand and an injured right leg were sustained by Mary McCormic, American soprano, during the crossing from New York to Cherbourg last week. (P. & A. photo.)

Far From Perturbed by exclusion from Haiti, Senator King of Utah is shown above as he left conference with President on Latin-American situation. (P. & A. photo.)

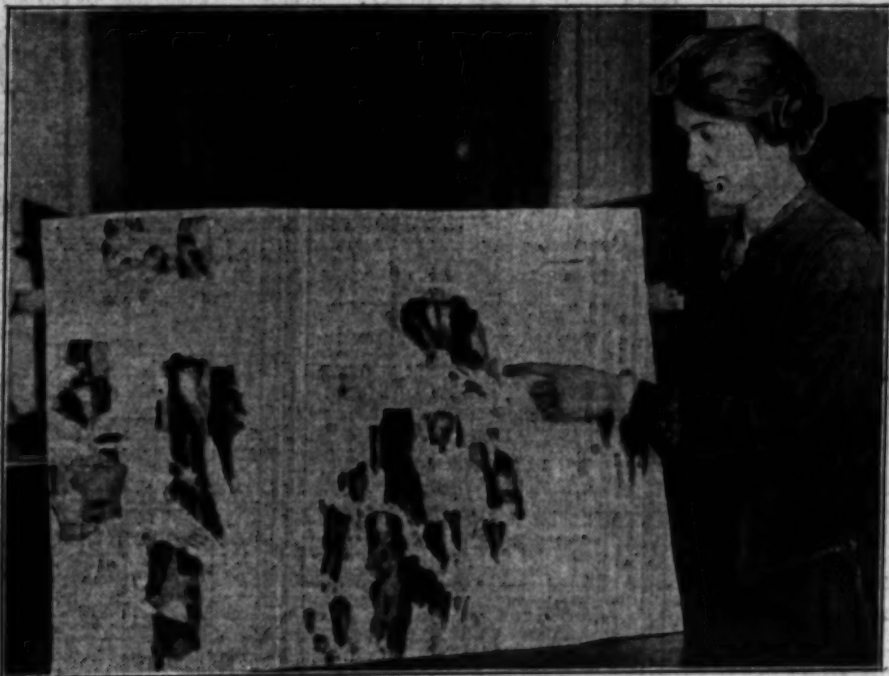

One of the Fastest Liners in Trans-Pacific Service, the President Grant of the Dollar Line, has been requisitioned by the United States government to carry marines to China. The liner (above) will begin trip from San Diego not later than 30th inst. (Times Photo.)

Dinner Jackets for Women are the latest thing in Paris, according to Manilla Lefmori (above), Orpheum player, who predicts general adoption of costume.

The Confederate Flag on the Uniforms of the baseball team of the Georgia School of Technology has aroused protest in the South on the grounds that when players slide they dip the emblem in the dirt. Catcher Angley of Georgia Tech shows uniform above. (P. & A. photo.)

What is Probably the World's Most Curious Map has been added to the collection of the Library of Congress. The map, which is made of Siberian driftwood sewed onto sealskin, accurately locates eighty-three islands of the Crown Prince group and was compiled by an Eskimo hunter at the request of the Navy Department. (P. & A. photo.)

A Lot of Active Service May Be In Store for These Armored Cars when Shanghai by foreign powers and shown above being dragged from the coolie-power. These particular cars are French war machines, but others are assembling and shipping similar ones in anticipation of further trouble in Chinese metropolis. (P. & A. photo.)

A Certain Method of Distinguishing Real Pearls from those of synthetic manufacture has been perfected by a German lapidary, M. Rosenthal, shown above with his device which is said to be infallible. It is a boon to jewelers. (P. & A. photo.)

Money Means Mrs. H. H. H. 105-year-old woman who has inherited a fortune. She is shown above with her pipe and her dog. (P. & A. photo.)

"My Lips on His, I resolved to die at his side," the Countess de Janze confessed in explanation of her attempt on the life of Raymond de Tafford (above). (P. & A. photo.)

It Might Have Been Taken in Any Local Newspaper-police comedy drama. "Chickadee" is playing at the Hollywood Music Hall. Carroll is "beautiful murderer" in "The Great Escape".

## OUR HISTORY IN PICTURES

687

The Drive for Atlanta.

by J. CARROLL MANSFIELD

AFTER THE BATTLE OF CHATTANOOGA, BOTH THE UNION AND CONFEDERATE ARMIES, WORN OUT WITH THE RECENT HARD FIGHTING, WENT INTO WINTER QUARTERS. BRAGG WAS REMOVED AND SUCCEEDED BY GEN. JOSEPH E. JOHNSTON. JOHNSTON RECRUITED HIS ARMY AND MADE PREPARATIONS TO REPEL THE UNION ADVANCE ON ATLANTA WHICH HE KNEW WOULD COME WITH THE SPRING.

LATE IN FEBRUARY, 1864, GRANT WAS MADE A LIEUTENANT-GENERAL, WITH COMMAND NEXT TO THE PRESIDENT OF ALL THE UNION ARMIES. HE WENT TO VIRGINIA TO DIRECT THE CAMPAIGN AGAINST LEE. HE LEFT AT CHATTANOOGA AN ARMY OF 99,000 VETERANS, WHICH WAS PLACED UNDER THE COMMAND OF MAJOR GEN. WILLIAM T. SHERMAN.

IN MAY, 1864, SHERMAN TOOK THE FIELD WITH THE OBJECT OF CAPTURING ATLANTA, AND MARCHED ALONG THE RAILWAY THAT LED SOUTHWARD FROM CHATTANOOGA. JOHNSTON FELL BACK BEFORE THE UNION ADVANCE, DESTROYING THE RAILROAD AND BRIDGES IN HIS RETREAT.

AT DALTON, SHERMAN'S ARMY WAS STRONGLY INTERFERED WITH BY THE CONFEDERATE ARMY, WHICH WAS TRENCHED AND HAD ACROSS THE RAILROAD. THE LATTER PART OF THE ARMY, HOWEVER, PRESSED BACK TO CHATTANOOGA, 25 MILES FROM ATLANTA.

##### TRUST

###### DEED

MANY realtors, attorneys and conveyancers have formed the habit of naming Security as the Trustee in all Trust Deeds.

They realize that this bank carries out the problems of such a trust with the same care and thoroughness in detail it gives to all trust duties.

Grantors under Trust Deeds also prefer Security, knowing that this bank will give due consideration and protection to their interests.

Trust Deed forms, prepared under the bank's supervision, are provided for realtors and attorneys upon request.

PLAYGROUND  
NEEDS URGEDNation-Wide Drive Started  
to Inform PublicSubdividers Urged to Plan  
Recreational AreasHome Buyers Asked to Insist  
on Such Tracts

BY FREDERIC J. HARKIN

WASHINGTON, April 10. (Reuter)

That playgrounds are an important factor in making good citizens of the growing generation has been a recognized fact for some time. There have been for a number of years organized playgrounds associated with the schools, and within the past few years many municipal recreation centers, both for grown-ups and children, have been established.

The Playground and Recreation Association of America has now begun a nation-wide educational campaign to interest real estate dealers in setting aside a part of each new subdivision for a playground and to inform the general public so that they will demand a neighborhood playground when buying a home.

It is pointed out that the plan of setting aside a certain block of land for a neighborhood playground when planning a new subdivision has advantages for all concerned. The realty man loses nothing by setting aside such a tract since the value of the land will automatically adjust itself to this factor, just as it does to the fact that space for streets must be subtracted from the subdivision.

## GREATER ADVANTAGE

Since many people when purchasing home sites add to their list of questions about schools, churches, water supply and churches, that of "Is there a playground near?" the lot would become more salable if there were a neighborhood playground.

While the buyer may get a little less ground for his money, or pay a bit more for his land, this is more than offset by the advantages of the playground. The mere fact that there is a place where the child may have supervised play and not be in constant danger of being struck by automobiles is worth the small additional expense to his parents.

William E. Harmon of the Harmon Real Estate Corporation of New York City, was a pioneer in the movement of incorporating a playground in the plans for a new subdivision. He says that the success and practicability

LAW TO TEACH VIRTUES BY  
EXAMPLE BEFORE NEBRASKA

LINCOLN (Neb.) April 10. (AP)

Teaching school children honesty, morality and courtesy by inference and example is all very well, but State Senator Allen A. Stinson of Nebraska, Neb., believes youngsters should take specific courses in those virtues.

He has offered a bill in the State Legislature compelling teachers throughout the grades and high school to give courses outlined by

the plan has been demonstrated. "The children now do their playing in inclosed and protected areas. Every resident is part owner in the playground movement and control and is actively interested. Risk of life and limb is eliminated. It has cost the residents very little and has paid enormous dividends in health and happiness to them and their children."

## REALTY MEN ASSIST

As a part of its educational campaign the Playground and Recreation Association of America has distributed a pamphlet setting forth recreation fundamentals in real estate development. Persons to whom these are sent are asked to sign and return the coupon on the back if they approve these ten fundamentals, and already 243 leading firms, city planners, and others have complied with this request.

Among other things these fundamentals say: "Upon real estate men more than upon any other class depends the extent to which the growing parts of our cities shall be real homes for the men, women and children living in them."

That dealers in many sections of the country are not only concurring verbally with the plan of setting aside playground areas, but are actually doing this, is shown by reports from various places. In Los Angeles county a subdivision known as Palce Verdes with an area of some 2000 acres is now being developed. It is estimated that the population of this section will ultimately be about 50,000.

## HOME OWNERS CONTROL

As a part of the general plan slightly more than 25 per cent of the entire property, or less acre in every four, has been dedicated for public parks, playgrounds, and other recreation features. Seven of these are to be public school buildings.

There is a large recreation field of four acres and an excellent eighteen-hole golf course which is available to all property owners and residents without membership or other fees. All of these parks and recreation tracts are under the control of the Palce Verdes Home Association. They are fully developed by the subdividers,

the State superintendent in "common honesty, morality, courtesy, obedience to law, respect to the flag, respect for parents and the home and the dignity and necessity of honest labor."

"Long experience as a teacher," the senator says, "convince me that preparation for life and citizenship should be stressed more in the schools. A definite objective should be established both for teachers and pupils."

maintained by taxpayers, and devoted in perpetuity to the association for recreation purposes only.

In Hutchinson, Kan., a new subdivision of thirty acres, an area of four acres has been set aside by the subdividers for park and playground purposes. This land has been deeded to the city which will be responsible for its development, maintenance, and operation.

## OTHER CITIES

In Shreveport, La., a new section of 1400 acres, with an expected population of 12,000 business and professional people, has six acres for recreation. These include a golf course of 185 acres, and parks and children's playgrounds totaling 110 acres. At Flint, Mich., area for four parks and one playground have been set aside.

In Bayonne, N. J., a group of apartment buildings has carried out this recreation center idea. These apartments are intended to house 140 families, most of whom are employees of the Standard Oil Company. There is a children's playground with an area of 1175 square feet as one end of the plot. This yields twenty square feet of playing space per child on the basis of approximately sixty children occupying the playground at a given time.

This ground is open from the first of May to the first of November, and a leader is provided. The inner courts extending the full length of the development are devoted to lawns with shrubs and flowers. In all, 6016 square feet of space has been set aside for rest and recreation courts, comprising a little over 22 per cent of the entire area.

In New York City where the congestion is such that the children of the poorer localities have great difficulty in finding some place to play, a block of houses on the west side of Avenue A between sixty-fifth and sixty-sixth streets, known as the Garden Tenements, is provided with a play space. These buildings were erected with Rockefeller funds, and are designed to house eighty-two families. The entire area is 100x200 feet. There is an interior garden, 31 by 100 feet, extending to the rear yard by an opening some 41 by 23 feet. In this opening and extending into the yard there is a sunken playground for the small children.

SAPIRO TO  
BE ON RACK  
MANY DAYSSenator Reed Lays Out  
Long Course of Queries on  
Promoter's Actions

DETROIT, April 10. (AP)—Continuing with his declared intention to show that Aaron Sapiro by improper legal practice might have alienated some of the fees, loss of which he attributed to articles printed in Henry Ford's Dearborn Independent, Senator Reed of Missouri, chief of Ford's counsel, tomorrow will take up the Colorado potato co-operative.

Dearborn Independent articles mentioning Sapiro's connection with the organization of the Colorado potato growers were stressed in his declaration of asserted libel. One of twenty counts and eight of eighty-six specific allegations of libel were devoted to it.

Likewise it will receive much attention in the cross-examination of Sapiro, which already has stretched over nine days, according to the Ford counsel. Two full days probably will be devoted to Colorado potatoes after nearly that length of time required for questions concerning the Idaho potato organization.

Sapiro's organization of the dark and bright tobacco growers, from whom he received a large part of the fees, which in eleven years totaled approximately \$400,000, will be taken up after completion of questioning about Colorado.

Tobacco probably also will require two days or more, according to the attorneys, with various odds and ends of the cross-examination and examination to take up two or three more days.

After Sapiro leaves the stand, according to his attorney, Ford will be demanded as the next witness.

WEST POINT GOAL OF  
NATIONAL GUARD MEN

WASHINGTON, April 10. (AP)—The Military Academy at West Point is one of the goals toward which the young enlisted men of the Army or National Guard may strive. Although no one older than 22 is admitted, 222 of the 1113 cadets now enrolled have had prior service, fifty-seven having been appointed from the ranks of the Regular Army and eighty-five from the National Guard. The new class which will matriculate in July is expected to have the largest proportion of Regular Army men in the history of the academy.

Send His  
Clothes Along

THE same hand finished service which women admire—is also applied to men's attire. His suits are thoroughly cleaned by pure distilled benzine—then carefully and expertly shaped. Ten separate operations assures them coming back new in appearance and clean. It's a plus service which spells the difference between ordinary cleaning and the best.

When sending your gowns, include your husband's suits. It's easier to send them all at once and he will appreciate the favor. If you desire, they will be back in 24 hours—ready for him to wear.

Rudimentary College

BERKELEY, April 10. (Reuter)—

Students of the University of California are studying the "two year" plan recently adopted at Stanford for the purpose of reporting its efficiency or non-efficiency. At the conclusion of the investigation, a report will be made to the Board of Regents. If the report is favorable, the plan will be adopted by the University of California. The plan does away with the freshman and sophomore years.

The study was undertaken voluntarily by the recently created alumni association of the University of California.

A complete investigation of the plan, according to the plan, is being made by the alumni association. It would require at least a year, according to Robert Hillyer, executive secretary of the association, to complete the investigation. The study will be completed by the end of the first two years of the study plan, President Campbell said.

The study is being made by the alumni association, and it is expected that the study will be completed by the end of the first two years of the study plan, President Campbell said.

### NEW SHIPS FOR COAST PLANNED

Swedish Company Will Add to Motor-Craft Line

Builder Hunted for Early Construction of Craft

Monte Carlo Resident Here En Route to North

The Johnson Line of Sweden, operating six motor liners to the coast, is planning a new ship in which to build another line, with plans in the making for two more to follow.

The first will be practically a sister ship of the Axel Johnson, now in port, and the Axel Johnson, the largest of the fleet. They were completed last year and have passenger accommodations for sixty, as well as generous refrigeration space.

The two for which plans have not been finally drafted are expected to be even larger, with passenger accommodations for more than 100 persons. The latter is recognition of the popularity of all-sea trips between Northern Europe and here, demonstrated yesterday when the Axel Johnson brought in forty-six passengers, and her predecessor sixty, the capacity of the ship.

Asel Johnson, owner of the line, who just returned to Sweden from this country, expressed himself as highly pleased with the business his fleet is getting from the Pacific Coast. He may have to go to Germany or England to build his next ship, announced as Swedish shipyard have orders that will keep them going for two years.

### SHIP DUE TODAY

#### ON FIRST COAST TRIP

The first ship to arrive at the port today is the *W. Williams*, which is the first of a new line of ships to be built for the Pacific coast. The ship is built for the Pacific coast and will be the first of a new line of ships to be built for the Pacific coast.

### SUN AND MOON

The sun will be visible from 6:00 a.m. to 6:00 p.m. The moon will be visible from 6:00 p.m. to 6:00 a.m.

### RADIO REPORT

The radio report from the Pacific coast is that the weather is clear and the sea is calm.

# OIL AND MINING

## REVIVAL OF MINE FIELD REPORTED

Fifty Kingman Estates Now Operating Against Twelve a Year Ago

KINGMAN (Ariz.), April 10. (Exclusive)—Fifty mines are under active development and operation in this county, compared with only a dozen a year ago. Outman is having a revival. Katherine is busy at a half-dozen points and the Chloride section is reviving with the utilization of modern selective extraction processes for its base ores.

Oro-Golden has started work up on the Oro Verde section of the property in Todd Basin, recently acquired, tunneling toward the ore that has been developed to only 300 feet of depth. The Chloride, a vein of refractory lead-zinc ore has been worked to 1400 feet of depth in the last year.

Adjoining the Oro-Golden, the Laysan Basin Mining Company, Geo. W. Kays, manager, has started work on the Laysan Basin, where the 800-foot shaft is being deepened to 1000 feet, with the intention of working the 200 and 300-foot levels. One of the veins is carrying gold ore of excellent value.

The Chloride section, at Outman, has taken over the Telluride No. 1 shaft and has leased from the Sunnyside Consolidated as the Telluride No. 1 shaft, which adjoins Outman Eastern ground.

The shaft will be of large value in further development of the leading company's property, being only a short distance from the company's main vein, to which a 800-foot crosscut will be started at once. President James J. Moss recently returned from the East, where he succeeded in securing ample funds for development work.

## SEMINOLE FIELD GREATEST

Barnsdall Official Returns From Survey of Gigantic Pool Discusses Effect Upon Petroleum Market

BY HOWARD C. KEOLEY

In the opinion of Judge John H. Barnsdall, chief counsel for the Barnsdall Corporation, who has just returned from a lengthy stay in Oklahoma, the new Seminole oil field in that State may be expected to exert a great influence upon oil marketing conditions all over the country during most of this year.

He pointed out, in an interview yesterday, that many of the big eastern marketing companies are fortunate enough to have vast holdings in the new field and are therefore unlikely, he thinks, to be in the market for California's light gravity oil for many months. This state of affairs, he believes, will curtail the movement of local oil from Los Angeles Harbor to the coast.

He further pointed out that the construction of a new pipeline for the Seminole field is now being completed with a holding plant, air compressor and machine drills, the intention being to sink to the 800-foot level for the purpose of developing the body at depth. Two carloads of marketable ore are now stored on the dump, and upon the completion of the machinery installation it is expected that regular ore shipments will begin.

The syndicate taking over the Red Raven has in contemplation the construction of a new plant for ore treatment, mill practice embodying concentration and the classification of the metal content of the ore into separate products. To determine the best methods for extraction of value, experimental mill tests have been made, the first-class lead concentrate showing values of 97 in gold, 64.02 in silver, 72.5 per cent lead, and 5 per cent zinc. Zinc concentrate, first cut, returned values of 6 cents in gold, 64.02 in silver, 72.5 per cent lead, and 5 per cent zinc. The strike was made about three months ago, but now that news of the discovery has been made public, the mining men, prospectors, and investors are flocking to the new mining field.

## RED RAVEN CENTER OF ATTENTION

Find in San Bernardino County Mine Reported of Unusual Richness

The Red Raven mine two miles north of Adelanto in San Bernardino county, recently taken over by Capt. J. L. Carter, L. E. Snider and A. M. Drake of Los Angeles, is attracting a great deal of attention in local mining circles, due to the fact that the striking discovery has been made to a depth of twenty-two feet in solid ore running from 60 to 80 to the ton in silver, lead, gold and zinc content.

To further facilitate development work the mine is now being equipped with a holding plant, air compressor and machine drills, the intention being to sink to the 800-foot level for the purpose of developing the body at depth. Two carloads of marketable ore are now stored on the dump, and upon the completion of the machinery installation it is expected that regular ore shipments will begin.

The syndicate taking over the Red Raven has in contemplation the construction of a new plant for ore treatment, mill practice embodying concentration and the classification of the metal content of the ore into separate products. To determine the best methods for extraction of value, experimental mill tests have been made, the first-class lead concentrate showing values of 97 in gold, 64.02 in silver, 72.5 per cent lead, and 5 per cent zinc. The strike was made about three months ago, but now that news of the discovery has been made public, the mining men, prospectors, and investors are flocking to the new mining field.

## GROWTH SHOWN IN OIL EXPORTS

Notice Steady Upward Trend During Past Week

Forty-one Tankers Required to Carry Shipments

Atlantic Domestic Trade to Get 891,552 Barrels

There has been a steady upward trend in bulk petroleum exports from Los Angeles Harbor during the last three weeks, and last week's shipments topped the list with 3,587,293 barrels, compared with 3,243,894 barrels the previous week, and 2,035,088 barrels the week before that. There were forty-one tankers loaded out last week.

The Pacific Coast domestic trade took 841,098 barrels, including 478,279 barrels of crude, 94,000 barrels of fuel and 278,747 barrels of gas. Pacific foreign trade took 243,693 barrels, including 17,500 barrels of crude, 134,314 barrels of fuel and 81,699 barrels of diesel.

The Atlantic domestic trade took 891,552 barrels, including 291,104 barrels of crude, 344,851 barrels of fuel and 255,597 barrels of gas. The Atlantic foreign trade amounted to 281,213 barrels, consisting of 104,258 barrels of crude, 413,994 barrels of fuel and 89,000 barrels of gas. The shipments for the week were as follows:

PACIFIC DOMESTIC

K. M. Shaw to Richmond with 14,800 barrels of crude, 11,500 barrels of fuel and 11,500 barrels of gas. B. H. Smith to Seattle with 11,500 barrels of crude, 11,500 barrels of fuel and 11,500 barrels of gas. B. H. Smith to Portland with 11,500 barrels of crude, 11,500 barrels of fuel and 11,500 barrels of gas. B. H. Smith to San Francisco with 11,500 barrels of crude, 11,500 barrels of fuel and 11,500 barrels of gas. B. H. Smith to Los Angeles with 11,500 barrels of crude, 11,500 barrels of fuel and 11,500 barrels of gas.

## ALAMITOS FIELD HITTING STRIDE

Operations in Area Show No Sign of Slackening

Three Wells on Production Yield 9000 Barrels

Twenty-three Others Listed for Early Completion

Three wells are already producing three more should be completed during the coming week, and twenty others should be placed on production within two weeks, in the Alamitos Heights area of the Seal Beach field. There are ninety wells drilling there at present. The three wells on production are collectively yielding 9000 barrels a day.

Aside from the intensity of the development in the town-oil district, the most interesting event of the last week at Seal Beach was the discovery by the Associated Oil Company of the Belvoir zone in its Bryant No. 4 at a depth of about 4500 feet, which is nearly 500 feet shallower than that some has been found anywhere else in the field.

The Associated drilled its Bryant No. 4 through the Bixby zone, of which it penetrated about 170 feet, and set its water string in a thirty-foot body of shale, which intersected between the Bixby and Belvoir sands. The well has been found anywhere else in the field.

The Associated drilled its Bryant No. 4 through the Bixby zone, of which it penetrated about 170 feet, and set its water string in a thirty-foot body of shale, which intersected between the Bixby and Belvoir sands. The well has been found anywhere else in the field.

## SAN JOAQUIN SEARCH FOR OIL WANES

Only Five New Projects Started During Week as Crude Prices Slump

BAKERSFIELD, April 10. (Exclusive)—Only five new oil wells were started in the San Joaquin Valley last week. The sluggish condition here is regarded as a reaction resulting from the prevailing low price of crude oil.

The Standard Oil Company started two new wells on Sec. 27, 11-20, in the Wheeler Ridge field, and the other on Sec. 9, 23-24, in the Midway. Another Midway well started is the No. 6 of the Honolulu Consolidated Oil Company on Sec. 8, 23-24.

In the Sunset field the Bankline Oil Company has started in its No. 11 new well on Sec. 4, 11-20, and the General Petroleum Corporation has begun its No. 17 on the Midnorth lease on Sec. 21, 13-23 in the same field.

Mine tests for water shut-off were reported, five of which were in the Midway and two each in the Poco Creek and Kern River fields. The Midway wells are Honolulu Consolidated Oil Company No. 15, Sec. 8, 23-24; General Petroleum Corporation No. 13, Sec. 21, 13-23; Standard Oil Company No. 7 and 20, on Sec. 9, 23-24, and 7, 23-24, respectively.

In the Kern River field the Western Oil Company, Ltd., has successfully started its No. 1 well on Sec. 28, 28-27, and the General Petroleum Corporation has started its No. 30 well on Sec. 14, 28-27.

The two tests in the Poco Creek district were the Union Oil Company's No. 3 on Sec. 8, 27-28, and the No. 4 of the Shell Company on Sec. 8, 27-28.

## OBISPO GUSHER IN SHALE ZONE

New Well Brought in Close to Old Producer

Yield from 3440 Feet Set at 1200 Barrels

Completion Not Expected to Spur Activity.

MARICOPA, April 10. (Rebutive)—The Obispo Oil Company, which started a wild drilling campaign in this district back in the fall of 1925 by bringing in the Obispo No. 6, a producer rated between 700 and 1200 barrels a day, has just completed its Obispo No. 7, two locations south of the old gusher, at a 1300-barrel producer.

This hole was deepened from 2600 to 3440 feet in a well of 25 deg. gravity from which is commonly regarded as the brown shale. The water shut-off is said to be perfect and the well is regarded as an excellent property. The Obispo No. 7 is still flowing 500 barrels a day, both wells were drilled on Sec. 23, 13-23.

When the Obispo No. 6 came in two years ago a group of operators holding leases in its vicinity started a mad scramble for greater production. Several companies were led to say large sums for leases upon which to drill. The Standard, General Petroleum, West, Pacific-Midway, American and a few other organizations drilled from one to three holes apiece in search of the big sand, but none of them found it.

The conclusion of many geologists, after considerable study of the district, is that the Obispo is a lens, not unlike that at Rosamond, and that the Obispo formation happened to land "in the gravel." It is not considered likely that a deepened well will precipitate another drilling campaign, but it is thought probable that a contract will be done in the district from time to time, and that an occasional producer of real consequence will be completed there.

## Angelenos Add Compressor to Patagonia Mine

The Derrick-Patagonia Mining Company of Los Angeles, operating in the Patagonia section of Santa Cruz county, Arizona, has added a six-drill air compressor to its deepening equipment, power for the operation of the hoist and compressor being furnished by Diesel engine, which will also serve as power for the generation of electricity for lighting purposes, according to report made by Miss Hogan, mine manager.

In the development of this silver-lead property a double-compartment shaft is being sunk on the hanging wall side of the vein, a body of ore of an assay value of \$50 a ton, besides carrying commercial value in gold, the shaft having now attained a depth in excess of sixty feet.

Three shafts will be employed upon the completion of the deepening equipment, and the shaft will be still further deepened to the 1000-foot level, with stations established at intervals of each 100 feet. Much level, drifts and cross-cuts will be run in the blocking out of the ore mass. With this new performance, according to Mr. Hogan, regular shipments will be inaugurated.

## Baltic Mining Equipped for Deep Working

The property of the Baltic Mining Company has been equipped with engine and hoist, together with deepening equipment, including air compressor and drills, and a contract has been let for the sinking of a two-compartment shaft to the 700-foot level, in the extensive development and operation of this district (Ariz.) property, which adjoins the western apex on the west.

Company holdings, according to President W. E. Redmon, in Los Angeles on mining business, is to traverse the entire length by the of the largest ledge in the district, resembling in its surface characteristics the croppings overlying the Union of Eastern, Western Apex and Tread Mines.

The Baltic is "close-in" ground, promising much with development, and its exploration and development will be watched with a great deal of interest by mining men of the camp and also by local stockholders.

## NEW MINE VENTURE

Company Formed to Operate Old Bluebird Estate

PRESCOTT (Ariz.) April 10. (Exclusive)—E. S. Perkins of Prescott and M. A. Strain of Martinez, Cal., have incorporated the Adelphi Mining and Milling Company, a \$750,000 corporation, to work the old Bluebird and Lincoln mines in Crown King district in the Bradshaw Mountains.

The ore mainly carries gold and silver, but copper is expected to be the principal mineral at depth. Much development work has been done in the past, the machinery plant is a good one and a mill is available on the ground for production expected to start before summer.

## OUTPUT OF MALJAMAR REPORTED

Pipe Line Handles 10,000 Barrels in March from Three Lea Projects

ANTHUSIA (N. M.) April 10. (Exclusive)—More than 10,000 barrels of crude have been handled by the Illinois Pipe Line Company from the Maljamar Oil and Gas Corporation's three producers in Lea county, during the last week.

The Illinois Pipe Line Company will next week deepen their Lynch No. 1 producer on Section 22, 17-31, which has been capped seven months. The drilling in this producer will be closely watched as the well gave indications of becoming a good one and a mill is available on the ground for production expected to start before summer.

South of the Gulf Production Company's Hendricks No. 1 producer, on a twelve-hour test, put 2019 barrels into the tanks. The well is producing from a sandy lime at 2228 to 2943 feet.

A test of the Westbrook discovery at 1625 feet, with the well producing from a sandy lime at 2228 to 2943 feet.

A test of the Westbrook discovery at 1625 feet, with the well producing from a sandy lime at 2228 to 2943 feet.

## WOMAN FACTOR IN OIL FIND

JACKSONVILLE (Tex.) April 10. (Exclusive)—The scientific work of a woman had considerable bearing upon the recent discovery of a big oil pool in Cherokee county, twelve miles west of Hereford.

As paleontologist for the Rio Bravo Oil Company, Mrs. Esther Appin conducted the laboratory tests that identified the formations that the well was successfully drilled.

Her report caused the Rio per cent interest in one-half of 1000 acres which the Humble Oil Refining Company held under lease and upon which the discovery well was drilled.

## Comparison of California's Daily Oil Production

District	Average for Week		Average for Week		Average for Week	
	Week ending April 9, 1927	Week ending April 10, 1927	Week ending April 9, 1927	Week ending April 10, 1927	Week ending April 9, 1927	Week ending April 10, 1927

**REMARKS OF THE ASSOCIATED PRESS**  
 The Associated Press is exclusively entitled to the use for republication of all news credited to it or to its contributors. It is not to be used for other than news purposes without the express written consent of the Associated Press.

**Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.**  
 —Abraham Lincoln

**COINING A NAME**  
 Some of these authors who write scandalous alleged biographies of great men of the past aren't really biographers. They are biographers.

**ARMED MOMENTS**  
 We may not be quite as reverent as we used to be, but still nobody questions the genuine appropriateness of opening political conventions and soft-boiled eggs with prayer.

**WHAT PRICE POWER**  
 Motorists are not disposed to be unduly curious over the responsibility for the gasoline war. They are killing their tanks and bearing themselves right cheerfully. They are not in a critical mood.

**ARMED OR LONE**  
 Disarmament is a great thing so long as the other fellow disarms just as much as we do. But never let us lay down arms to such an extent that in an emergency we will have to take to our legs.

**HERB'S THREE CHANCES**  
 Mr. Coolidge can't possibly accept all those invitations which are being urged on him. So maybe the impatient writers would be glad to learn that some of the rest of us are going to take vacations, too.

**GOSIPS ARE BUSY**  
 They used to talk of the mysterious association of the red-headed girl and the white horse. Now there is harsh gossip about the white mule and the red-headed man. There will always be something for people to talk about.

**BOY SUBURGARS**  
 A New York man caused the arrest of his own son and three other boys, all members of a gang of youthful burglars who had hidden their loot, consisting of radio sets and other articles, in his cellar. Question arises, was this a publicity stunt or just the righteous act of a 1937 model Spartan father?

**FOOLS AND ANGELS**  
 "Fools rush in where angels fear to tread" was the former Kaiser's cable reply to a recent newspaper request for a statement about America's entrance into the World War. Ach, mein, Wilhelm! It was because you were making so many angels of perfectly good soldiers that we rushed in. By the way, who made you an authority on who are fools and who are angels?

**GROWN AND BEAR IT**  
 While Uncle Sam uncovers a surplus every now and then, across the water Britain grieves before the discovery of a fresh deficit of \$100,000,000. While this may not be demoralizing to an empire that grides the earth, it is nevertheless genuinely distressing to the government. Determined efforts are regularly made to balance the budget, but they all come to naught. The fortune of the Britons, however, generally pulls them through.

**YELLOW JOURNALS**  
 The New York Crime Commission blames much of the way of banditry and burglary upon the cheap picture papers that carry sensational stories of murder and crime. The hysterical head-bop is ready for anything that will put his picture on the front page. The new school of tabloid journals specializes in this sort of stuff-in fact, they almost have a monopoly of it. But it is tough on a community that is trying to make and keep the peace.

**SMOKE AND SPEED**  
 Arrested for driving his car thirty-five miles an hour in a fifteen-mile zone, a local motorist was fined \$15. To calm his nerves after this shock he lit a 35-cent cigar in court and was fined \$25 for contempt. After thinking the matter over he decided that \$25.25 was too much to pay for a smoke, so he apologized to the judge and his contempt fine was remitted. He probably would not have gotten off so easily, however, had he smoked an El Ropo or one of those two-for-a-nickel torches. There are limits to judicial leniency.

**LONGEST TUNNEL**  
 More than 1,000,000 yards of earth have yet to be moved before what is to be the longest tunnel in the United States will be finished. The great bore, which will be eight miles long, twenty-one feet high and sixteen feet wide, is being drilled by the Great Northern through the Cascade Mountains. As contrasting ancient with modern methods, there was the three-mile tunnel laboriously chiseled out by the Romans in A.D. 52, which required the work of 30,000 men for eleven years, while the eight-mile Cascade tunnel will require less than three years' work by a comparatively small force of men employing air-hammer drills and high explosives.

**STUDYING AMERICAN METHODS**  
 European business men are studying American methods of mass production and distribution. The lack of such methods militates against their progress. Such is the conclusion reached by Edward A. Wilson, Boston merchant and economist, who recently has made an intensive study of European economic conditions and who says in the New York Times that we should aid the overseas tradespeople and manufacturers as much as possible to acquire a system like ours; for if business should continue to be bad over there we will sustain heavy losses.

Being the keystone of all our foreign markets, Europe must be in a position to buy largely from us and with its old-time regularity else we shall not be able to build up our industries as rapidly as we hope. Trade moves in a circle. If European countries cannot buy from us they cannot buy from China, Japan, India and South America, which in turn, not being able to sell their products, will not be able to purchase our surplus.

Mr. Wilson says that millions of people in Europe, capable of producing in abundance, are "suffering helplessly from a chronic condition of underconsumption." He refers to the sad state of the workers of England, 1,500,000 of whom, he says, are idle and are a tax upon the community. Unemployment is increasing in Austria, and the ratio of unemployment to population there is the highest in Europe.

One fears that Mr. Wilson takes too pessimistic a view of the situation in England, where, according to recent cable reports, labor conditions have so brightened of late that the dole system has been discontinued, and capital is on a better basis than it has been at any time since the war.

The main trouble with Europe is that it learned so great moral or economic lesson from the war, and that each nation is preparing for further conflict, not only with armed forces, cannon and poison gas, but by the maintenance in peacetime of war industries which the people cannot afford to support. Europe sighs for such prosperity as cure, but is not making right efforts to secure it. While it is studying the systems of production and distribution which have aided so largely in our prosperity, Europe would be profitably employed if it were also to study the American attitude toward war and particularly President Coolidge's idea of the "liquidation of hatreds," meaning, of course, national hatreds, from which we are comparatively free and always have been when our rights were not transgressed.

Of course the adoption of American trade methods would help Europe, which will learn a great deal about them at the coming Geneva business and economic conference to which we are sending delegates capable of teaching the people of that continent much that they should know. But while the all-or-nothing war idea is rampant there, and warlike preparations continue to occupy so much attention and cost so much money, what Europe may learn from that conference or any other source in a business or economic way will be of little avail.

Europe must assume our peaceful attitude while it is copying our trade methods, else its restoration to its old-time business, industrial and economic condition will be painfully slow and uncertain.

**HUMAN CARD INDEX**  
 R. Bennett Bean, anatomist of the University of Virginia, classifies men in four types, whether fat or lean, according to the New York Times. They are cerebral, respiratory, muscular or digestive in the final analysis.

Of these subdivisions the cerebral is not of first. Here the big brain which houses the mind is well developed and the little brain which controls the muscles of the body is shrunken and small.

Napoleon is the outstanding example. Wilson finds place with his idealistic tendencies; Jefferson, with his versatility and far sight; Julius Caesar, with his fourteen secretaries kept busy and his legions maneuvering. Napoleon's brain was a huge card index packed with experience ready for reference any minute.

peals of laughter by itself as well as others. It possesses large abdomen, enormous jaws and teeth, rolls of fat, double chins and general impressiveness of personality. Falstaff embodies its ideals.

It produces the Alfordism and oftentimes the bishopric proportions. It is likely to have more bowels of mercy literally than any of the others, is usually more sympathetic and is responsible for more optimism than all the other groups combined.

It is difficult to determine which one of these grand divisions is of the most value to society. All of them are essential to a wholesome, progressive, rollicking world. In which pigeonhole do you belong?

**NEW TAO SYSTEM**  
 Under the present system of handling traffic law violation cases the average violator is said to spend one hour and thirty minutes in court awaiting the calling of his name by the judge. Often there are 300 to 400 cases to be heard of a morning, and the courtroom is crowded with motorists, many of whom lose the better part of the business forenoon because of the delay incident to the many hearings, though these often are of the most brief and informal nature. A violation which may be merely technical or debatable and for which the person receiving a tag is not likely to be fined receives as much time for its disposition as a serious offense, often more. If explanations are admitted by the judge.

To obviate this loss of time the Automobile Club of Southern California is advocating the creation of a traffic bureau in this city which shall handle these cases with the least possible delay. The judges of the Municipal Court, Chief of Police and City and County Prosecutors are leading their aid to the plan.

If the new plan is carried out, when an offender receives his tag he will be notified what his fine is likely to be and he may sign an agreement to appear before the traffic bureau within thirty-six hours. No bail will be required, but failure to appear will be followed by the issuance of a warrant. This is a great improvement upon the present system. It is admitted by those in authority that present conditions tend to encourage tag-doggers and that the forfeiture of bail in lieu of appearance in court is an irregular and undesirable practice. It affords no opportunity for the examination of the person arrested, whose offense may be graver than merely appears in the simple and inadequate language of the tag, and facilitates also the practice of providing for keeping a record of offenders, which is not done at present in many cases. This should be kept, for a third or fourth serious offense should be severely punished, and operators' licenses should be withdrawn.

## Whose Dog?

There have been intense legislative debates on the alcohol problem, and the drys were much encouraged by some of the sentiments uttered in behalf of their campaign. But the wets were too strong for them and won the day. Still the Reichstag Budget Committee was able to defeat a local-option measure by a margin of only four votes out of a total of twenty-eight cast.

The drys have given notice of their intention to return to the breach and, if possible, put over prohibition in a land in which one would naturally look for nothing of the sort. The mainstay of the drys is the schools, which they have found a fertile field for their propaganda. Of late there is said to have come into existence "an astonishingly large number of teachers' temperance societies." Their members are required to be active workers for prohibition, both within and without the schools. There are also many students' temperance organizations, and about half the adherents to the German Youth Movement, or about 1,000,000 persons, are pledged to temperance in a general way. Then, too, there are the women, who, since their enfranchisement, have become a powerful political force in favor of prohibition, and who are said to be employing all the successful tactics of their sisters in the United States.

So that, far from being the remote contingency which most Americans naturally would regard as prohibition in that land of beer gardens and wine cellars, it may be that the world will wake up some fine morning in the not very distant future and read the news reports of a dry and near-dry Germany.

**SPEED**  
 There are ten corporations in America in the \$1,000,000,000 class; and all of them are ranked to the god of speed—transportation, communication and their auxiliaries of steel and oil.

The United States Steel Corporation, with its total assets of \$2,446,000,000; Southern Pacific Railroad, \$1,319,000,000; Pennsylvania Railroad, \$1,147,000,000; American Telephone and Telegraph Company, \$1,044,000,000; New York Central Railroad, \$1,040,000,000; Standard Oil of New Jersey, \$1,352,000,000; Union Pacific Railroad, \$1,140,000,000; Atchafalaya, Topeka and Santa Fe Railroad, \$1,071,000,000; General Motors Corporation, \$915,000,000; and Ford Motor Company, \$800,000,000, are the big ten of the country.

These are the institutions that put wheels under folks and shrink the globe. Travel and contact are the most highly prolific sources of money making. The speed mania of America is being capitalized at the full. And it is one of the greatest agencies for good.

Communication is the coefficient of civilization. Avenues of intercourse are not only the results of development, but among the most efficient of development. Peoples far removed from each other lack commerce of ideas as well as of products of industry. Interchange sharpens wits and distributes knowledge. It enables men to depend more upon each other and to specialize effort. Perfection of product results. A larger consideration of others is engendered.

**PEN POINTS**  
 A classic is any book of which the average purchaser reads the first thirty pages.

A good Fascist must feel mighty disloyal when he has a thought left by himself.

Women now have equal rights plus the deference bestowed upon them by the men.

Fable: He failed at everything he tried, but his mother-in-law remained loyal and untroubled.

In the old days the wife was a leaser; now she just wants to be leaser.

They say the hard part of being a great novelist is to affect modesty when gushing women offer praise.

## CHINESE SORRY SOLDIERS

BY MURZA BARONOVA  
 How strange it seems to us of Southern Russia to read articles in the newspapers of America about the danger of an invasion of Europe, or anywhere else.

There were thousands of Chinese mercenaries fighting in the Red army in the Ukraine and the Crimea in 1919 and 1920. I was in that territory behind the lines at the time, and I know from officers of the White army opposed to them that the most they did in any serious fighting was to demoralize the other soviet troops.

The soviet chiefs were afraid to challenge this system, because it was a part of the Bolshevik program that no man should have the right to give orders to any other. A Cosack colonel who fought all through the Crimean and Crimean campaigns said that it was not an unusual thing to see regiments of Red troops march out of line at the beginning of a battle. The Whites were generally contemptuous of the Red troops, but there was so little organization in the Red troops and so much dissension that the Whites at one time pushed forward to almost within sight of Moscow. They held the Reds off for two years; and, if the Whites had been themselves united, there might be now a free White government in the Ukraine.

It was to furnish troops that would not be commanded by commissars and that would obey their officers that about 50,000 Chinese troops were brought into the Crimea and into the Ukraine. The Whites officers agreed that the Chinese were models of good discipline, as long as there was no enemy and no loot in sight. In one of the battles of the Crimea two regiments of the Chinese were caught in a machine-gun crossfire and nearly all killed. When the dead were collected for burial after the battle the pockets of the Chinese soldiers were found to be filled with jewels, trinkets and gold and silver coins. It was assumed on the other hand, according to the White officers, that much plunder on the persons of the regular Russian Red soldiers. They may have looted, but they turned most of the loot over to the commissars.

"The Chinese huddled together like sheep on the battle line," according to my Cosack informant. "One never could tell what they would do. If a Russian regiment led the way they would sometimes rush madly forward, making desperate bayonet charges. They would stand for a time in a frenzy, as though caring nothing for their lives."

Then, if something came to surprise them, something unexpected, they would turn and run, throwing down their arms and scattering all over the country. We only had to plan some kind of a flank movement or set off an explosion in their rear, or send an airplane over their line to put the Chinese out of the fighting."

Other White officers assure me that a Chinese army led by Chinese commanders would be a more dangerous force than that of the enemy. The old Russian officers always laugh at the idea of a Chinese invasion. They say it would be easy to assemble 10,000,000 men of fighting age in China. But what could be done with them after they were assembled? They would be little more than a mob. The different Chinese governments have neither the money nor the brains to keep such a mob supplied with food. They would be starved out within a week of their first numbers.

They tell me that a mob is not an army; that an army of 100,000 Japanese, Germans, French or English, if properly supplied, could march anywhere in China almost unopposed.

Just think of it—Trotzky had to supply the Chinese troops with a ration of rats for food in the Ukraine in order to keep them from deserting on a mass scale. I know this will read like a wild exaggeration to most of the Times family; but it is true that hundreds of cars of frozen rats were brought to the Chinese during the Crimean campaign. The rats, however, were not the basement variety you have in this country, were not sewer rats. They were field rats, and somewhat resemble the rodents that live in the grain fields and make their homes in the ground here in Southern California. Perhaps they should be called squirrels, for they have heavy tails.

TRAFFIC BUREAU PROPOSED

First Steps Taken to Provide Way for Motoring Public  
to Pay Fines Outside of Court

A city traffic bureau will be operating here in conjunction with the  
traffic division of the Municipal Court within the next thirty days, it was  
announced Saturday by City Prosecutor Lickley, sponsor of the plan.  
The first step toward the establishment of the bureau will be a meeting  
Wednesday evening in the office of  
Police Chief Davis of the committee  
appointed by Municipal Judge Mc-  
Connell, in charge of traffic laws, to  
make plans and devise ways and  
means of creating the bureau.  
The bureau will be a place where  
traffic-law violators can pay a stipu-  
lated fine without appearing in court  
and suffering long delays because of  
congested calendars.  
The committee is composed of Pres-  
iding Judge Strueman of the Mu-  
nicipal Court, the City Prosecutor,  
the Chief of Police and representa-  
tives of other agencies interested in  
traffic problems and law enforce-  
ment.  
More than \$50,000,000 worth of  
Automobiles were sent to India  
last year.

Vivian Will Chew Cud as Mum Witness

Nowadays, every girl may have her  
day in court—it is in a divorce  
action, the collectors catch her or  
she she is a material witness in an  
auto accident. And so Vivian is  
scheduled to appear as a silent wit-  
ness today in Superior Judge Steph-  
ens' court at the trial of Samuel and  
Charles Thompson and Percy Sweet  
on charges of grand larceny.

Vivian is a silent witness because  
she is a cow and cows don't talk.  
Nevertheless Vivian is the key-note  
of the trial for upon the identification  
of the horses hangs the guilt or in-  
nocence of the three defendants.  
According to Dep. Dist. Atty. Ryan,  
the cow will be brought to the Hall  
of Justice today and quartered in  
the basement where the witnesses  
will be asked to identify it.  
The three defendants are charged  
with having stolen four head of cat-  
tle from a Lancaster rancher.  
People of Britain bought half as  
many watches in the last troublous  
twelve months as in the same pe-  
riod preceding.

POSTCARDS TO BE BOOSTERS

Civic Organizations Will Send Mail Out on Planes  
on First Anniversary Flight

More than 25,000 air-mail postcards advertising Southern California and  
Los Angeles will be distributed today by the Chamber of Commerce, various  
trade and professional organizations and industrial plants in the metropoli-  
tan area for mailing on the first anniversary flight over the Los Angeles  
to Salt Lake City airway next Sunday.  
Similar postcards have been dis-  
tributed by more than sixty cham-  
bers of commerce in Southern Cal-  
ifornia, communities outside Los An-  
geles—each organization printing on  
the inside an advertisement of its  
own particular locality.  
The grand total of these cards now  
issued exceeds 150,000, it is said, and  
Western Air Express, Inc., is pre-  
paring to handle upward of 4,000  
pounds of mail out of the Los An-  
geles air-mail airport the 17th inst.  
The anticipated load is nearly four  
times the present world record air-  
mail cargo of 1137 pounds.  
In this morning's mail, the Los  
Angeles Chamber of Commerce will  
post under individual covers one of  
these cards to each member of the  
organization with a request that

Golden Wedding Date Feted by Angeleno Pair

More than 200 relatives and friends  
gathered Saturday and Mrs. L. C. Pfaffen-  
berger to celebrate their golden wed-  
ding anniversary yesterday at their  
home, 1820 South Wilton Place. The  
couple were wedded in Waco, Tex., on  
April 10, 1877, after a courtship  
which had its inception while they  
were attending college at Brown, O.  
They have lived here continuously  
since 1905, when Rev. Pfaffenber-  
ger, as a missionary, came to Los  
Angeles to establish a branch of the  
First German Methodist Church.  
Eight children were born to them,  
including Walter G. Pfaffenberger, as-  
sistant advertising manager of The  
Times.

BUSH TO ADDRESS CLUB  
Judge Bush of the Municipal Court  
will be the speaker of the day at  
the noon meeting of the Electric  
Club at the Biltmore Hotel today.  
Local and out-of-town men in at-  
tendance at the quarterly meeting  
of the Advertising-Publicity-Section  
of the Pacific Coast Electrical Asso-  
ciation will be luncheon guests of  
the club.

Pre-Easter Sale of Plated Hollow-Ware

Flower Printed Silks

For the Frills and Furbelows of Easter-Tide

With plants and ruffles fast becoming the order of the day, interest in dainty  
of colorful patterns, has deepened greatly. And since printed silks are  
as lovely as one could wish for, they are holding the center of the stage. Some  
are bold in design, others, more demurely patterned are more intriguing than  
any. To see them is to be captivated by their beauty.

- 40-In. Printed Crepe de Chine \$1.75
- 40-In. Printed Georgette and \$2.95
- 40-In. Printed Chiffon
- 35-In. Warp Printed Chiffon Taffetas \$3.95
- 40 In. Printed Plaid Voiles \$4.50  
—Charming for the fluffy feminine styles of summer, or for those  
little frocks for the little miss. This printed plaid voile  
is as pretty and wears so well that it is proving most popular.
- 40 In. Printed Heavy Canton Crepe \$4.50  
—These color effects are shown in this favorite fabric. There is  
nothing quite like it for the more tailored styles of summer, or for  
the party ensemble suit and coat.
- 40 In. Printed (Nat'l. Park Series) Voiles \$4.50  
—Have you seen these very unique National Park Series Silks?  
If you haven't you have something of charm and interest to see in  
this collection. Lovely scenes from the famous parks are de-  
picted, printed in patterns on the silken fabrics.
- 40 Inch Printed Chiffon \$4.00 and \$4.50  
—Each pretty floral effects are shown  
in this chiffon, loveliest of  
all fabrics.
- 40 Inch Printed Pussywillow Taffeta, \$4.50 and \$5.00  
—Beautiful new colors and such adorable new patterns that will make up into  
lovely spring togs. Also the National Park Series.

- Large Bunnies are pictured.....\$2.95

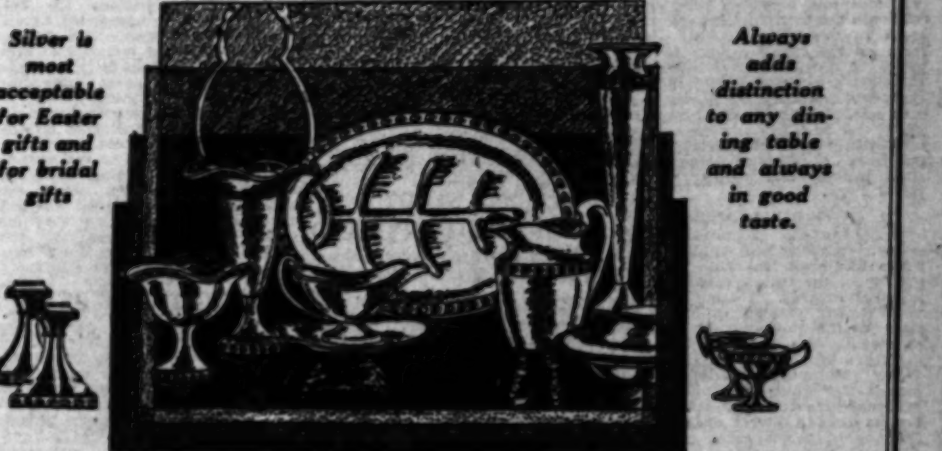

"To Love is to Remember"

—And the simple and appropriate way is  
with Easter Greeting Cards. A card  
is such a little thing but it carries so much  
to the heart of a friend!

—A most attractive and complete line is now  
on display in our stationery section...  
and with Easter only a week away selections  
should be made today. Special cards for

Mothers, Sweethearts and Friends

—and cunning cut-outs for the kiddies are  
priced  
5c to 50c  
(Coulter's—First Floor)

A Most Comprehensive Selection of Silver-Plated Hollow-Ware, Each \$5.00

—A soft, satiny finish plated hollow-ware with a narrow engraved border.  
Gracefully designed, lending the same gracious atmosphere of refinement that  
silver has given to all ages, as it takes its designing from the early American  
craftsmen and silversmiths.

You May Choose At \$5.00

- double covered oval vegetable dish
- double covered chop dish
- well-and-tree platter
- fruit bowl
- water pitcher
- casserole
- candle stick
- center piece
- gravy boat and tray
- glass-lined relish dish

(Coulter's—First Floor)

This Charming Easter Hat

—Is of Lido-lite felt, with clever  
design in hand-tucks, and all silk  
belting ribbon. In all colors and  
all head sizes.

A Group of Lovely Crochets, crush-  
able and so wearable, are here for  
Easter wear. \$10.00 and \$12.50.  
(Coulter's—Third Floor)

Under Garments of "Forest Mills" Union Suits, \$1.25

—These garments of such excellent  
quality cotton knit fabric need no  
introduction as to their worth as  
those of our patrons who have  
worn them know of their good  
fitting qualities.

—The webbing in the back makes  
them specially desirable, as it gives  
the garment more elasticity. These  
garments come either in bodice or  
built up shoulder styles with tight  
knee. Well reinforced in crotch and  
under arm. Sizes 36 to 44.  
(Coulter's—Fourth Floor)

For Easter Beautiful Fox Scarfs

"A Color to Suit Every Costume"

at \$85.00 to \$110.00

PLAYDOM

"RED KISSES"

BELMONT SHOW IS NEARLY GOOD

BURLESQUE

By Edwin Schallert

Only the fact that it was not played in the manner of broad burlesque prevented "Red Kisses" from being one of the most amusing comic extravaganzas of the current season. Whatever the intention of the author of this stage piece, which is now being seen at the Belmont Theatre, certainly the result verged close on hysteria for the audience, that gathered to witness its first presentation here last evening.

"Red Kisses" is an importation from Chicago. It is one of several things which have been brought to the midwestern metropolis. As a play, it is so gloriously and so completely a failure that it is difficult to see how it could be considered as good. It will take you back to the palmy days of burlesque, and it will make you realize the funny lines that you heard from the stage for the past decade, if not longer.

In any case, you will not find "Red Kisses" dull or distracting. Some bad plays are that way, but this is happily one of the exceptions. It isn't the sort of piece that you would expect to discover in a theater that has been established in a nice family type of attraction, but I do not know that its popularity will be any the less on that account.

The title itself is the kind that in such quarters is still considered as a little less than "One Man's Woman," a somewhat similar piece of comic opera, and it is a rough-hewn piece of work that was given here recently, but it involves a less serious attitude when one enters the theater.

I do not see how anyone can fail to find "Red Kisses" both funny and entertaining, and you can always leave when it grows tiresome, or become embarrassing, as it does occasionally.

More than this I cannot say about it, only have seen it if you take it seriously.

The principal roles are played by Sylvia Bremer, Montague Shaw, Henry Hall and Leonard Dory, though Corlie Palmer who takes part in a tango, and speaks about two lines is featured over all of these. What she has to do is to be mentioned. Miss Palmer did very well, and she received a tribute of great applause.

Miss Bremer is sincerely interesting personally on the stage, and one might anticipate the opportunity of seeing her under more auspicious circumstances. Henry Hall played the mean head of the diamond mine enterprise, who makes life a festively blood-curdling affair for everybody. The biggest popular hit was a song by Henry Hall, who really made her lines very amusing and convincing. Frederick Vogeding, Doris Mortlock, Ann Tress, Miss Marvin and Bruce Payne, are among others whose work was genuinely commendable, and whose roles were not altogether impossible.

"SEVENTH HEAVEN"

IN CUTTING STAGE

The final scenes of "Seventh Heaven" were completed by Frank Savage, the director, on Saturday and Sunday, and the picture was shown to the public on Monday.

However, Director Savage is now busy engaged in cutting the picture and getting it ready to turn over to Carl Elinor of the Carpathia Circle Theatre, who is expected to present the picture in the near future.

It is to have its world premiere at the Carpathia Circle in May, following the six months' run of "What Price Glory."

PREFERS FREELANCE

FIELD IN FILM WORK

That the frequently made statement about the shortage of leading men in filmland is not a figment of the imagination is attested by the three leading actors made Edmund Burns by producers since he joined the free-lance field.

Formerly a contract player, Burns' first assignment as the featured male role in "The Chinese Parrot" which Paul Lunt is directing for Universal. However, Burns has not given any definite answer to any of the offers, as he feels the latitude for freedom of expression offered by the free-lance field more than compensates him for any monetary loss sustained through time consumed between pictures.

SHOWS FITTALS

"Is Your Daughter Safe?" the picture which is now being offered at the California Theatre, is said to be instructive, telling as it does of the pitfalls and dangers which a young girl of the present day faces in "a city where the underworld's distinguishing hand is always outstretched for innocent victims."

"Is Your Daughter Safe?" is being shown at the present time for men only.

East Meets West—Yes, Sir!

LAUGHS FALL TO TWO HEADLINERS

Belle Baker and Joe Laurie, Jr., Divide Most of Humor at Orpheum

BY KATHERINE LIPKE

The Orpheum this week is pretty well divided between Belle Baker and Joe Laurie, Jr. What one doesn't capture in the way of laughter falls to the other. However, the rest of the bill forms a very acceptable background for these two.

Joe Laurie has the easiest line of humor which I have seen on a platform since Will Rogers first walked out, showing gum and swinging a jar. He comes out to chat with the "folks," tells them all about himself, his family, his farm, what his bootlegger said and all the other funny incidents which go to make up modern life. He is a dead ringer for a clown and cracks several more jokes about her. That done, he says good-by, puts on his cap and leaves.

This is Belle Baker's second week, and as far as the applause went yesterday, she could go on scoring for three or four weeks. She is a popular number.

The Three Swifts are just that. Three fellows clever at juggling put on some very good stunts, accompanied by a genial bit of fun. One of the Swifts is better than the other two, but all are well above the average.

The eternal triangle with a couple of new angles is presented by Arthur Brown & Co. in a skit called "Ten for Three." Nothing to get greatly wrought up about, but a pleasant opportunity for Byron to show what a humorous chap he is. He is assisted by Wade Brown, Kathryn Kaye, Byron and George Christie.

Just when we have thought there was nothing new to be had in acrobatic dancing along comes Harry and Dennis Dufur with some clever new stunts. So far as they are concerned, a nervous act but worth seeing.

Raymond Wilbert, who closes this week's show, divides his time between acrobatic stunts and performing some accurate golf strokes for the benefit of golf enthusiasts in the audience. He also wears a most amusing golf outfit. There were no colors left when his career was made.

The Waite Trio are a company of boomerang throwers and skillful performers with the acrobatic and the acrobatic. Although able to carry the act by themselves, they are assisted by a group of girls and men, who figure prominently through "The Police House" and Raymond Wilbert's act.

BILLIE DOVE HAS "PREACHY" PICTURE

The Ernest Pascal novel, "Egypt," has come to the screen and is showing for the week at the Broadway Palace Theatre under the title of "The Seraphim," with Billie Dove, Huntly Gordon and Raymond Bloomer in the title roles.

Although the film was not without its thrilling moments, on a whole it was a bit too preachy, using as the basis of its plot, all of the rise, fall and other pastimes so freely attributed to the youth of today, and, as in the case of so many other efforts of this type, the truth is not at all exaggerated.

It is as if, however, the plot were itself around the heroine, who was pictured as a "sinner" of the "sinner's" variety, nicknamed "Egypt," by her friends because of her ultra-sensational character, and her utter disregard for the truth of religion.

From this point on the film would have been one big party after another, if the vivacious young lady had not met and fallen in love with the preacher, newly appointed to the parish in the town in which she lived.

Of course, as the young lady's reputation around the community was none too good, the neighborhood divided together and after much deliberation arrived at the conclusion that her frequent visits at the parish house had "nothing" whatever to do with the saving of her soul.

A number of rather incriminating situations arise when the preacher and the bishop, who are convinced of the preacher's innocence only to find the girl in question concealed behind the door in his study.

Affairs were brought to a culminating point, however, with the thrilling of yacht wrecks and quite a romantic rescue staged by the preacher, in which the heroine's "sinner" character was given worldly pleasure and settle down to the quiet life of a minister's wife, a state of affairs which seemed a bit improbable for a young person of the heroine's type and former habits.

As the picture progressed, Billie Dove gave an admirable and convincing interpretation. A note of authority rang throughout her entire performance.

Raymond Bloomer, as the minister, and Huntly Gordon, as the headmaster of the school, were responsible for excellent portrayals.

Others adding effectiveness to the cast were Edith York, Thomas Ricketts and Nora Cecil.

The feature was directed by Lois Weber.

Shorter films concluded the program.

To Transform Forum Theater for 'Mr. Wu'

Manchurian chairs, Chinese urns and incense burners dating back to remote antiquity, Mandarin coats, and other garments, all valued at \$100,000, will combine to make the interior and exterior of the Forum Theatre compatible with the setting of the new picture, "Mr. Wu."
